Please list some of your accomplishments achieved during your racing career. 4 Feature wins at Husets. The fourth time that I raced I won the feature. I raced Hobby's for 3 years and before that I raced go carts. This is my first year in a B-Mod.

Tell us about a funny or memorable moment you have experienced while racing. The night before I graduated from Augustana College I had to work on my race car all night. The next day I went to my graduation and then I went racing. My clutch was out and I still won the race. Awesome!!! This was the only race that my sister has ever watched cause she lives in Tucson, Arizona.

What advice would you offer to someone who is considering building a racecar or to someone who has just started racing. Make sure to double your budget & then you will still be short. You have to have a dedicated crew who will put in their time to make a great car.

When did you start building your car this year and how often do you work on your car in the off season. We started in October, we worked on it about 5 hours a week until February then we hit it hard until racing starts.

Brock lives at 25788 Lyndale Rd
Renner, SD

He works at Wells Fargo in Sioux Falls

When Brock is not racing he loves Basketball and he likes to spend Time with his family & friends.
