Tell us about a funny or memorable moment you have experienced while racing. One night Don was doing double duty, (he drove the street stock and his first time in a sprint car) he got into the sprint car took off and as the crew said he forgot to turn left in corner one. Not good!!! Don's most memorable moment to him and his team is all of the wins at the Nordstrom Challenge at Huset's and Madison.

What advice would you offer to someone who is considering building a racecar or to someone who has just started racing? COME BUY MINE!!! Seriously, Don said to shop around, check out the cars that are doing good, see who built them, and ask questions.

When did you start building your car this year, and how often do you work on your car in the off season? Don started building his car in February, which is early for him) typically they work on their car a couple of nights a week unless more work is needed. Long nights are not an uncommon if you need to get the car ready for a race.

Don lives at 44280 222nd St
Ramona

Don is self employed as a
farmer.

When he's not racing he
referees for basketball
games. He also loves to go
snowmobiling.
