Foley's Heating & Air Conditioning- Sioux Falls

Please list some of your accomplishments achieved during your racing career. We would like to win a feature this year.

Tell us about a funny or memorable moment you have experienced while racing. One night, when I was racing the Purestock class in the A main a car stopped dead in front of us, the driver got out of his car during the race to pick up car parts off the track.

What advice would you offer to someone who is considering building a racecar or to someone who has just started racing. "Don't Start"!!!! But if you do you just have to realize that it is very addictive!

When did you start building your car this year and how often do you work on your car in the off season. We started building our car after the last race of the year. We work on the car 3 to 4 days a week.

William lives at 3709 N 10th Ave
Sioux Falls

He works for the city of Sioux Falls

When William isn't racing he likes to
Have a few drinks with his friends &
Work on the race car for the next year.
